

**The Borough of Stanhope  
has launched a new  
Community Notification  
Service called "Nixle"  
to improve communication  
with our residents.**

**By simply sending a text message with your zip code to 888777  
you are instantly registered to receive text messages from the Borough  
covering emergency situations, advisory messages concerning the Borough,  
and information about upcoming community events.**

**Want more control? Create a Nixle account at  
[www.nixle.com](http://www.nixle.com)**

**and tailor exactly what information you receive and how you want  
to receive it – via text message, email, mobile application, or web browser.**

Choosing to register for Nixle is a great way of keeping in touch with everything that is going on whether it is an upcoming event or severe weather that is on the way. It will be especially valuable during times when the power is out and cell phones are our only way of communicating!

Through Nixle, we will deliver messages securely to our citizens by e-mail and cell phone, supporting and expanding our community outreach efforts.

Obviously, the system will be most effective when we have large numbers of subscribers. Please spread the word about our use of the system to your friends and neighbors in town so they can stay informed as well.

If you find that you need help signing up, please feel free to call me at 908-334-1518 or contact Borough Administrator Brian McNeilly at 973-347-0159 (ext. 14).

*Rosemarie Maio*  
Mayor, Borough of Stanhope

Nixle is a secure communications service available to municipal, county, and state government agencies. There is NO spam or advertising associated with Nixle Municipal Wire messages. The system is available at no cost (standard text message rates apply for subscribers who do not have text plans with their cell phone providers).
